

SIZE & SCOPE OF THE TPC SERVICE COURSE

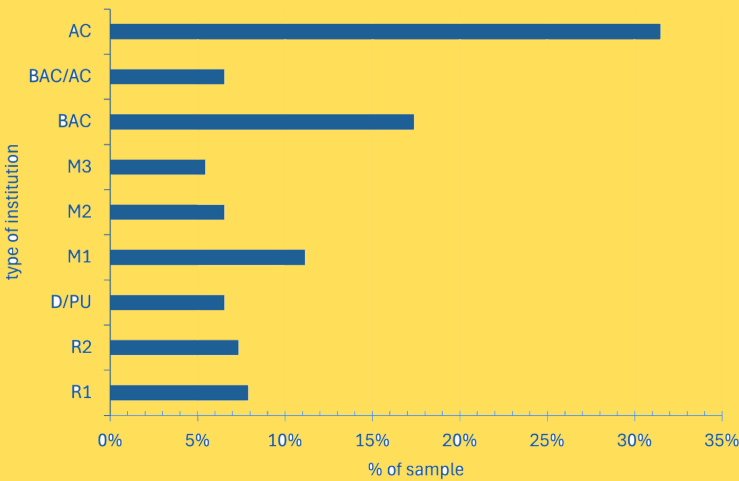

HOW THE DATA CAME TO BE

Total population of institutions (N = 2818) with a 95% confidence interval resulted in our sample size (n = 369).

2818 ➡ 369

We gathered information across a range of Carnegie Classifications in a way that results are generalizable across the population of non-profit higher education institutions.

COURSE CAPACITY

23 AVG

The average course capacity for all modalities is 23 students.

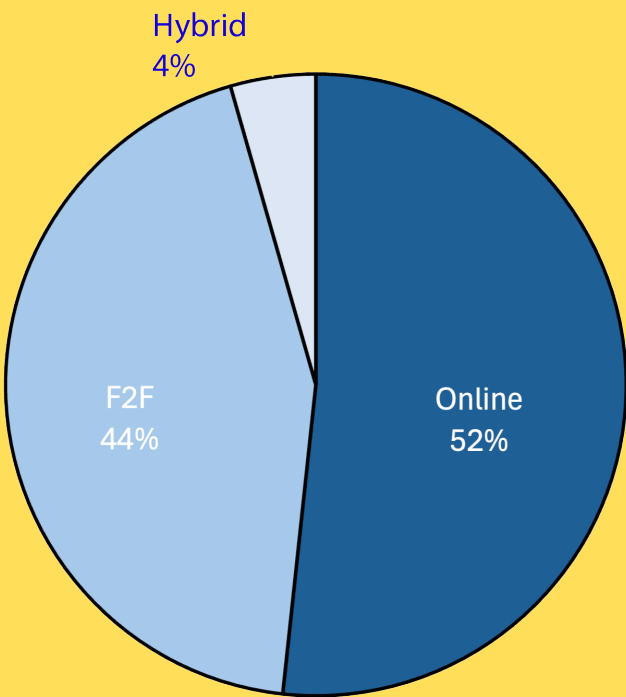

CONTINGENT FACULTY

81%

Contingent faculty are full-time, non-tenure track; part-time' adjuncts; and graduates students of record. They teach 81% of service courses

COURSE MODALITIES

Modalities are dominated by online and face-to-face (F2F) with slightly more than half of sections taught online.

TYPES OF COURSES

64% of service courses are offered at the sophomore or junior level.

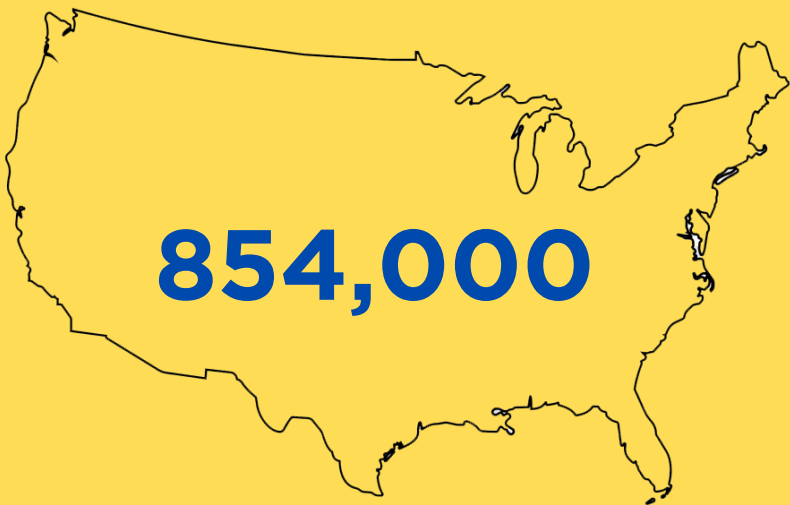

The courses have the following common titles:

- Technical = 45%
- Business = 31%
- Professional = 18%
- Specialized = 6%

Technical remains the most commonly used course term in the course title with 45% of service courses including that term.

TOTAL STUDENTS SERVED

The estimated number of students taught in the US in an academic year (F, SP, SU). Total sections are ~37,000.
